

Product release information

Product	AMS
Release number	V5.1.0235
Release date for evaluation	10th January, 2014
Release date for live deployment	17th February, 2014

Issue Date : 14th February, 2014
Author(s) : QA
Authorizer(s) : Product Manager
Issuer : QA

DOCUMENT HISTORY

Date	Revision	Change
10 th January, 2014	0.1	Initial draft to deploy to test environment
14 th February, 2014	1.0	Reviewed and updated to reflect deployment to live production environment

Introduction

This document lists the enhancements and bugs relating to Kallik software products.

Disclaimer: Every care has been taken in the preparation of this document and other information that we publish to ensure that the information is accurate, factual and correct to the best of our knowledge, at the time of publishing. Kallik Limited accepts no liability for any loss or damage or unforeseen consequential loss or damage arising from the use of the information contained within these documents. The information published in these products is subject to change without notice at any time, and Kallik Limited accepts no liability or obligation to inform the reader of such changes.

1. Enhancements

Reference #	Description
IN3628	Asset Manager - Functionality introduced to enable a pick list associated to the Brand. This will enable customers to setup Brand and Sub-brand hierarchies
IN3707	New workflow termed C5 has been developed which allows for a Project manager to complete the final approval
IN3652	Brief Manager /ADM - now support for brands linked to a pick list. This will enable customers to setup Brand and Sub-brand hierarchies
IN3674, IN3675	Improvements made to UI on Batch Approval screens
IN3648	Brief Explorer - Improvements made to Management Screens
IN3663	C1,C4,C5 Workflows enhanced to include 'Reject to ADM' at QC stage
IN3705	HTML Brief - now has an "open all fields" option so all fields can be opened at 1 time
IN3735	Minor update to support customised banners on the homepage

Bug Fixes

Reference #	Description
IN3616	Asset Manager - Issue resolved where the previous Button in Add An Asset [File] Screen disappears when returning from Meta Data screen
IN3669	Batch Approval - In IE8 when setting an "Approval Route" the page crashes and causes WM batch to fail (resolved)
IN3670	Batch Approval - In IE9 when clicking on the "Set Approval Route" icon, the dialog is displayed fixed to top left of screen i.e. unlike in FF12 it cannot be moved (resolved).
IN3662, <i>Client Ref 5788</i>	ADM - IE8 / IE9 Issue with the Checkbox to enable multiple selections resolved
IN3665, <i>Client Ref 5750</i>	AMS - Unsecure Site error message resolved
IN3676	Batch Approval - Resolution of issue Batch comment only added to the currently selected task of a marked set of tasks in Batched Tasks screen.
IN3685	Asset Manager - Screen 2 for Add An Asset does not contain links e.g. Admin, Search, Explore in header (resolved).

IN3658, <i>Client Ref 5767</i>	ADM - Issue detected whereby Cancelling a Project With Component Status 'Rejected' leaves DAM locked Asset - resolved
IN3701	Asset Lifecycle - Issue detected where Error screen was being displayed after sign-off from Final Approver - resolved
IN3710	Asset Manager - Issue detected where the Upload Wizard was crashing when returning from Repository Manager after an asset upload - resolved
IN3711	Asset Manager - Issue detected where a user was Unable to add/edit Keywords field in Upload Wizard - resolved
IN3696	Asset Manager - Bulk "Move" clarifications made to dialog box so it now says close instead of cancel
IN3699	Asset Lifecycle - Issue detected where Asset Initiator completion screen was corrupted after approval/rejection -resolved
IN3713, <i>Client Ref 5847</i>	Approval Manager - Issue where the User could not see the artworks in AAM History screen is resolved.
IN3690	ADM - it was noted that user information was not sufficient when selecting from different companies for the C4 workflow - this has been rectified
IN3702	Asset Lifecycle - Issue where ADM Conventional upload of artwork was causing an exception has been resolved
IN3610, <i>Client Ref 5686</i>	Brief Manager - project name and description validation added
IN3680	C1,C4,C5 Workflows - Recommendation to change QC mouseover when rejecting to say Production Manager rather than PM has been implemented
IN3695	Asset Manager - Issue where it was possible to move assets whilst locked has been resolved
IN3664, <i>Client Ref 5752</i>	AAM - Resolved issue where completed imported jobs were showing as "AAM unavailable" when viewed via the old approval history screens
IN3677	AAM/AL - Issues highlighted that email reminders should not include #undefined# if alias value not shown has been resolved
IN3714	Asset Manager - Issue where Asset Thumbnail "Product Name(Version)" was corrupted in some views has been resolved
IN3720, <i>Client Ref 5866</i>	HTML Brief (Brief Manager) Issue where field names did not print in Field Group Summary layout has been resolved.
IN911	ADM - Issue where Reference data fields were not displayed in the data tree has been resolved
IN3623, <i>Client Ref 5744</i>	AMS - Project Processor sessions (for automated artwork generation) were blocking user sessions has been resolved.
IN3739, <i>Client Ref 5868</i>	ADM - Removal of any duplicated project level data that may have appeared in the Cascade file for Semi Automated Artworks.
IN3769, <i>Client Ref 5709</i>	Workflow Manager - User is now able to reassign a task at different levels.
IN3838	AMS - Priority filter in INBOX only works when All is selected (resolved)
