Date	Revision	Change
14 th October, 2014	0.1	Initial draft to deploy to test environment.
16 th October, 2014	0.2	Reviewed and published.
31 st October, 2014	0.3	Added RQ1158 and published.
7 th November, 2014	0.4	Update following release to Sand box
4 th December, 2014	1.0	Reviewed and published to support release to the production environment (V5.2.0463)

Introduction

This document lists the enhancements and bugs relating to Kallik software products.

Disclaimer: Every care has been taken in the preparation of this document and other information that we publish to ensure that the information is accurate, factual and correct to the best of our knowledge, at the time of publishing. Kallik Limited accepts no liability for any loss or damage or unforeseen consequential loss or damage arising from the use of the information contained within these documents. The information published in these products is subject to change without notice at any time, and Kallik Limited accepts no liability or obligation to inform the reader of such changes.

1. Enhancements

Reference #	Description
RQ1045, IN3622	This enhancement relates to the following areas within the AMS application: <ol style="list-style-type: none">1) Data Selection (Brief Manager & Artwork Data Manager) - provides the ability users can generate a preview of the barcode when creating through the barcode widget2) Artwork Data Manager Cascade XML Generation - extended functionality so the users using Cascade are able to place an image into the artwork design file rather than manually creating the barcode.3) Conventional Artwork process - the generated barcode will appear as a file attachment so the Artworker can download and import into the artwork file
RQ1158	BI - as part of Kallik's ongoing improvements to the AMS system, we have upgraded the functionality of our Business Intelligence module to allow for improved performance, stability, usability and future expansion of functionality.
IN4932, <i>Client Ref 6450</i>	The batched tasks icon which appears on the Home page has been updated to be consistent with the single task icon
IN4864, <i>Client Ref 6414</i>	An improvement has been made so Picklist data can now be sorted alphabetically.
IN4620, <i>Client Ref 6285</i>	Enhancements made to the Route Builder to improve the look and feel and to make the tool more intuitive
IN4693, <i>Client Ref 6218</i>	Enhancement to the Audit Log - so it is now possible to show all versions of an Artwork
IN4742, <i>Client Ref 6334</i>	A tooltip has been added to SKU tab within the SKU and Component Table to display the Component Part description.
IN4815, <i>Client Ref 6379</i>	Change in Brief manager to allow the Brief Summary document to open in a new tab in the browser.
IN4783, <i>Client Ref 6343</i>	Enhancement introduced so components (including composites) and SKU's are shown alphabetically then numerically

Bug Fixes

Reference #	Description
IN4921, <i>Client Ref 6450</i>	Resolved issue so cursor will appear in the Password prompt entry field
IN4925, <i>Client Ref 6450</i>	Resolved issue to prevent inconsistent display of inbox results
IN3692, <i>Client Ref 5828</i>	Resolved Issue to exclude searches on Asset Detail fields when a user conducts a standard search
IN4989, <i>Client</i>	Now able to close the small window once a phrase is shown in the Brief Manager

<i>Ref 6554</i>	
IN4891	Clear button now works for drop-down lists in the Brief Manager.
IN4862, <i>Client Ref 6435</i>	Popup screen does not resize correctly and automatically fit in the full window without scroll bar (Brief Manager issue resolved).
IN4772, <i>Client Ref 6438</i>	Automatic redirector link causing error resolved in the Brief Manager.
IN4888, <i>Client Ref 6459</i>	Resolved issue where the associated pick list label type was not refreshing (Component Table) in the Brief Manager.
IN4874, <i>Client Ref 6451</i>	See full audit log in the Workflow Manager only showing 25 entries now resolved
IN4890, <i>Client Ref 6354</i>	Show Where Used in the Asset Tracker not working for artworks sent for Print Proof Approval now resolved.
IN4896, <i>Client Ref 6477</i>	Horizontal phrase import failing issue now resolved in the Phrase Manager.
IN4713, <i>Client Ref 6346</i>	A function had been built that when an artwork was approved through the AMS approval module, would incorporate an approval audit log as a 2nd page of the artwork pdf. This functionality has been further improved. The improvement will mean that for artworks built conventionally and uploaded into AMS for approval, any layers that have been switched off in the artwork are respected and do not appear on the pdf
IN4983, <i>Client Ref 6532</i>	New Version selection option not available when importing a change order reference to existing artwork ID (resolved).
IN4942, <i>Client Ref 6485</i>	Alphabetical view for selling countries now in the Project Wizard and Project Brief sections
IN4838, <i>Client Ref 6380</i>	The Brief Manager links to view the Details and Update to Latest version in Stale Data section are no longer hidden in the screen view
IN4979, <i>Client Ref 6377</i>	Resolved issue where it was possible to complete the Project Wizard without having selected at least on contributor
IN4934, <i>Client Ref 6449</i>	Ability to add notes in the audit approval log even if the user has not been part of workflow task
IN4855, <i>Client Ref 6480</i>	Resolved AMS issue when logging into the Homepage some CSS content was being displayed before the page was loaded.
IN4995, <i>Client Ref 6541</i>	When viewing project notes in the Brief Manager for a particular project and then accidentally pressing the browser back button no longer shows the incorrect project notes.
IN5058, <i>Client Ref 6505</i>	Barcode fields in AMS can now be pasted using the Firefox browser.
IN5017, <i>Client Ref 6463</i>	Asset Lifecycle now allows Grouped Approval Project Manager email to show correct approver.
