### DOCUMENT HISTORY

<b>Date</b>	<b>Revision</b>	<b>Change</b>
23 <sup>rd</sup> January, 2015	1.0	Reviewed and published.

## Introduction

This document lists the enhancements and bugs relating to Kallik software products.

**Disclaimer:** Every care has been taken in the preparation of this document and other information that we publish to ensure that the information is accurate, factual and correct to the best of our knowledge, at the time of publishing. Kallik Limited accepts no liability for any loss or damage or unforeseen consequential loss or damage arising from the use of the information contained within these documents. The information published in these products is subject to change without notice at any time, and Kallik Limited accepts no liability or obligation to inform the reader of such changes.

## 1. Enhancements

---

Reference #	Description
RQ1178	New tools to allow users to “batch import” projects and to use batch sign off, generate and allocate functions.
IN5028	AMS security enhanced to increase robustness.
IN5050, <i>Client Ref 6453</i>	The ordering of the batch approval tasks in the Workflow Manager is no longer totally random (now sorted by Component Name).
IN5052, <i>Client Ref 6549</i>	In the Project Brief the Component Tab now shows the Component Description in the header.

## Bug Fixes

---

Reference #	Description
IN5122, <i>Client Ref 6619</i>	Workflow Manager code improved to overcome the issue where the Batch approval sometimes opened up without showing tasks.
IN5085, <i>Client Ref 6673</i>	The What's Changed Report no longer includes ADM internal references (EXCLUDED _ FIELD_NAMES)
IN5119, <i>Client Ref 6648</i>	The AMS Inbox improved by reducing the time to load Approvals Tasks.
