

Product release information

Product	AMS
Release number	V5.2.0476
Release date for evaluation	2nd February, 2015
Release date for live deployment	9th February, 2015

Issue Date : 6th February, 2014
Author(s) : QA
Authorizer(s) : Product Manager
Issuer : QA

DOCUMENT HISTORY

Date	Revision	Change
6 th February, 2015	1.0	Reviewed and published.

Introduction

This document lists the enhancements and bugs relating to Kallik software products.

Disclaimer: Every care has been taken in the preparation of this document and other information that we publish to ensure that the information is accurate, factual and correct to the best of our knowledge, at the time of publishing. Kallik Limited accepts no liability for any loss or damage or unforeseen consequential loss or damage arising from the use of the information contained within these documents. The information published in these products is subject to change without notice at any time, and Kallik Limited accepts no liability or obligation to inform the reader of such changes.

1. Enhancements

Reference #	Description
IN5044, <i>Client Ref 6617</i>	It is now possible to configure the e-mail message used for the final artwork approval notification.
IN5055, <i>Client Ref 6216</i>	The project (HTML) Brief now shows contributors from the original routing and any subsequent re-routings.

Bug Fixes

Reference #	Description
IN5121, <i>Client Ref 6799</i>	The Inbox search filter has been improved by adding a delay between key presses before searches occur.
IN5157	An issue was reported where during the approval routing in the Workflow Manager an error occurred stopping the completion of the approval task. This has been resolved
IN5141, <i>Client Ref 6822</i>	An issue where the Bulk Generate function where the file upload function did not work with browsers IE9 / IE10 has now been rectified.
IN4886, <i>Client Ref 6418, 6403</i>	Improvement made so the image preview feature now present in the Workflow Manager batch screens.
IN5167, <i>Client Ref 6416</i>	Update to the system so the Assets.zip file now includes an eps file(s) of barcodes which can be used in the conventional artworks creation process.
IN2435, <i>Client Ref 6702</i>	An issue was detected where within certain use cases in the Grouped Approvals process (where single country and regional roles are involved) the access roles did not work as required. This has been resolved.
IN5053, <i>Client Ref 6209</i>	A change has been implemented so SKU numbers are now shown in brackets against each component code in the brief document.
IN5118	An update has been made so it is now possible to copy and paste content from a word or excel spreadsheet into AMS and retain the formatting.
