

Product release information

Product	AMS
Release number	V5.3.0211
Release date for evaluation	27th September, 2015
Release date for live deployment	11th October, 2015

Issue Date : 08th October, 2015
Author(s) : QA
Authorizer(s) : Product Manager
Issuer : QA

DOCUMENT HISTORY

Date	Revision	Change
18 th September, 2015	1.0	Issued for review

Introduction

This document lists the enhancements and bugs relating to Kallik software products.

Disclaimer: Every care has been taken in the preparation of this document and other information that we publish to ensure that the information is accurate, factual and correct to the best of our knowledge, at the time of publishing. Kallik Limited accepts no liability for any loss or damage or unforeseen consequential loss or damage arising from the use of the information contained within these documents. The information published in these products is subject to change without notice at any time, and Kallik Limited accepts no liability or obligation to inform the reader of such changes.

1. Enhancements

Reference #	Description
IN5183 <i>nService</i> 6867, 6257	A modification to allow the option of a table view of the component and SKU section of the project brief has been made.
IN5254, <i>nService</i> 6632	In the Simplified Workflow, if an artwork is rejected the task will return to the artworker who completed the previous artwork task. (Previously it returned to the user originally selected to complete the task, i.e. it didn't take into account any reassignment).
IN5365, <i>nService</i> 7197	The Approval Route that has been selected will now be displayed in the meta data section of the tasks.
IN5345, <i>nService</i> 6219	A change was made to make the comparison tool available at the Print Proof stage.
IN2296, <i>nService</i> 5063	The Workflow Route that has been selected will now be displayed in the meta data section of the tasks.
IN5035, <i>nService</i> 6523	The revert button has been disabled until work has been completed to ensure that reverting an artwork also includes correct reverting of the associated project brief.
IN5615, <i>nService</i> 7511	In Phrase Manager a message was added to show that a phrase was successfully saved.
IN5616, <i>nService</i> 7514	In Phrase Manager the tick box on Search was changed to a pick list for Name and Content searches.

Bug Fixes

Reference #	Description
IN5764 <i>nService</i> 7715	Duplicated comments are no longer shown in the Full Approval History report.
IN5725 <i>nService</i> 7724	All fields are now copied correctly when using the copy SKU and Component functionality.
IN5623 <i>nService</i> 7609, 7651	A fix was made to increase the speed at which the Asset Manager search screen headers load.
IN5579 <i>nService</i> 7528	A fix was made in Asset Approvals to ensure that notification was provided to appropriate users upon rejection.
IN4960	Annotations added by other users in Daeja are now displayed in a Tooltip.
IN5746 <i>nService</i> 7767	A fix was made to Phrase Manager and ADM to prevent an error in the event of a specific set of carriage return and symbols being entered.
IN5627, <i>nService</i> 7598	Occasionally users in the project brief have been experiencing a 'Sad Face' or a white screen. The issue causing this has been resolved.
IN5363, <i>nService</i> 7110, 6957, 7653	In certain isolated circumstances, major versions were not being shown correctly in the workflow. This has been rectified.
IN5692, <i>nService</i> 7641	A change was made in the BI module to exclude disabled components from reports detailing active components. This covered the following reports: Active Component Process Stage Load, Adoption, Artwork Activit, Business Category Activity, Regional Activity, All Live Projects (remove component from count in Project Brief items), Translation Status - Project, User Interaction Audit, My Live Items (remove component from count in Project Brief items), My Live Items Status, My Live Items Status Detail.
IN5773, <i>nService</i> 7792	An enhancement has been made to the way that the inbox loads in order to increase performance.

Additional Fixes

These additional IN have been rectified since deployment to the non-production environment.

Reference #	Description
IN5791, <i>nService</i> 7814	Preceding '0' added to Asset Detail Metadata field where appropriate
IN5782, <i>nService</i> 7823	A change was made to allow additional characters to be included when using 'bulk move' in Asset Manager
IN5808, <i>nService</i> 7609	A fix was made to improve the speed on Asset Manager search screen
IN5767, <i>nService</i> 7794	A fix was made to ensure that large amounts of data does not result in a timeout when performing a search in Asset Manager
