

Product release information

Product	AMS
Release number	V5.3.5.0528
Release date for evaluation	3 rd April, 2016
Release date for live deployment	24 th April, 2016

Issue Date : 25th April, 2016
Author(s) : Software Development Manager
Authorizer(s) : Product Manager
Issuer : Software Development Manager

DOCUMENT HISTORY

Date	Revision	Change
23 rd March, 2016	0.1	Internal review
24 th March, 2016	1.0	Customer release
29 th March, 2016	1.1	Added IN6041
6 th April 2016	1.2	Added IN5906, IN6023, IN6115, IN5971, IN5898
21 st April 2016	1.3	Added IN4955, #8494

Introduction

This document lists the enhancements and bugs relating to Kallik software products.

Disclaimer: Every care has been taken in the preparation of this document and other information that we publish to ensure that the information is accurate, factual and correct to the best of our knowledge, at the time of publishing. Kallik Limited accepts no liability for any loss or damage or unforeseen consequential loss or damage arising from the use of the information contained within these documents. The information published in these products is subject to change without notice at any time, and Kallik Limited accepts no liability or obligation to inform the reader of such changes.

1. Enhancements

Reference #	Description
RQ1395	Refactor of underlying Resource Manager technology and enhanced UI
IN6041, nService 7667	Phrase library content report now includes Phrase Name and Phrase Text in the search results and a filter has been added for Sub-Type
IN5906	Documents associated with previous versions of an asset can now be seen in document review tasks, standard WM tasks, print proof tasks, batch review tasks, batch approval tasks, and via the project management screen
IN6023, nService 8406	A user can now delete attachments if they have uploaded an attachment
IN5898, nService 8171	Asset Lifecycle data is now included in Average Approval Cycles and Average Approval Time reports
IN4955, nService 6537	A user is now requested to change the password on first login after an Administrator has changed their password
nService 8494	A change to a client specific import routine has been made to modify the way blank cells are handled

Bug Fixes

Reference #	Description
IN6046, nService 8365	The user can now see comments via the tooltip for previous versions of an artwork
IN6037, nService 8439, 8427	In the annotations and comments summary screen, annotation numbering is now maintained for existing entries when in auto-save mode
IN5984, nService 8352	In brief manager the system was modified to ensure that the system busy indicator does not remain on screen after the system has finished processing certain actions
IN4650, nService 8413	An issue that resulted in two clicks being required to open a second toggle panel was resolved
IN6115, nService 8495	Removing selling countries during the wizard process when copying projects no longer causes an issue with data levelling
IN5971, nService 8529	View Data Summary in Brief Explorer now handles an increased amount of SKUs, Components and data
