19 th July, 2016	1.1	Added IN6245, IN6285
28 th July, 2016	1.2	Added IN6287, IN6134

Introduction

This document lists the enhancements and bugs relating to Kallik software products.

Disclaimer: Every care has been taken in the preparation of this document and other information that we publish to ensure that the information is accurate, factual and correct to the best of our knowledge, at the time of publishing. Kallik Limited accepts no liability for any loss or damage or unforeseen consequential loss or damage arising from the use of the information contained within these documents. The information published in these products is subject to change without notice at any time, and Kallik Limited accepts no liability or obligation to inform the reader of such changes.

1. Enhancements

Reference #	Description
IN6228, nService 8803/8725	User Information report now includes Regions as a selectable option
IN6208, nService 7837	Stages are now alphabetically sorted in Route Admin & Distributions in the Stage Admin area of Resource Manager
IN6217, nService 7837	Various improvements to the display of distribution, stage, route data.
IN5790, nService 7749	In the User Information report the "Last Activity" field is now in date format recognised by Excel. Fields without a valid date in them are blank.
IN5909, nService	sFTP, PDF support and email notification on failure of transfer of data to target sFTP target when an artwork has been approved. Customer specific.
IN5789, nService 7731	Asset name and description added to the Lightbox Summary report. Customer specific.
IN6134, nService 8465	When reassigning users they should be listed alphabetically
IN6177, nService 8521	Column C in Users Open Tasks report has been extended to prevent name values from spreading across two columns
IN6199, nService 8440	Email notification is sent to specific users based on Access Groups. This is client-specific and must be requested via your Account Manager
IN6287, nService 8939	Project Wizard performance improvements

Bug Fixes

Reference #	Description
IN5238, nService 8843	Performance improvements have been made to the Form Admin Routes & Stages page.
IN6236, nService 8827	Performance has been improved when merging data from WERCS system during the project wizard process.
IN6190, nService 8659	An issue showing data accessed via the 'More...' link in Project Notes has been resolved.
IN6179, nService 8589	Certain filtering scenarios produced an error in the 'Current Artworks Stored in AMS' report, this has been rectified.
IN6152, nService 8555	The task title now updates as expected when a project is renamed in ADM.
IN6047, nService 8281	The ITEM NUMBER/SKU field in the project brief was missing a tool tip that displayed the full text, this has been rectified
IN5865, nService 8113	Searches within Asset Approval no longer return assets at Draft status.
IN6203, nService 8603, 8790	Allow guest companies to successfully open ZIP Files after upload and download from asset library.
IN6180, nService 8590	Additional date format handling functionality added to allow increased flexibility in certain BI reports.
IN6002, nService 8386	Allowed deletion of content in Reason field in the Project Wizard for copied projects
IN6256, nService 8903	The " character when used in the Name attribute in a task caused comments to not be shown in the Comments and Annotations report. This issue has been resolved.
IN6224, nService 8677	An error occurred during certain actions whilst annotating using batch review.
IN6255, nService 8794	Field Security page now shows customer-specific task groups.
IN6241, nService	Content in the Lightbox summary is now ordered by SKU

8399	
IN6245, nService 8847	A potential issue in the ADM generating the Assets.zip file when using multiple components simultaneously has been rectified
IN6285, nService 8929	Auto population of SKU and Component levels fields prevented updating of changes at project level

Appendix

AMS has been upgraded to utilise TLS 1.2 to improve security in addition to TLS 1.0/1.1, SSL v3 support has been removed. TLS 1.2 is supported by Chrome, FireFox and IE10; older versions of IE may require a minor configuration change. Please consult your IT department for further information should you be using an older unsupported browser.
