

Product release information

Product	AMS
Release number	V5.3.9
Release date for evaluation	14 th November, 2016
Release date for live deployment	15 th January, 2017

Issue Date : 11th November, 2016
Re-Issue Date : NA
Author(s) : Software Development Manager
Authorizer(s) : COO
Issuer : Software Development Manager

DOCUMENT HISTORY

Date	Revision	Change
10 th November, 2016	0.1	Internal review
11 th November, 2016	1.0	Customer release

Introduction

This document lists the enhancements and bugs relating to Kallik software products.

Disclaimer: Every care has been taken in the preparation of this document and other information that we publish to ensure that the information is accurate, factual and correct to the best of our knowledge, at the time of publishing. Kallik Limited accepts no liability for any loss or damage or unforeseen consequential loss or damage arising from the use of the information contained within these documents. The information published in these products is subject to change without notice at any time, and Kallik Limited accepts no liability or obligation to inform the reader of such changes.

1. Enhancements

Reference #	Description
IN6295, nService 8719	Additional clarity where there are multiple print suppliers has been provided in the workflow manager. The format of this change is: [printer name] (x of y)
IN6294, nService 8718	In the Artwork Authoring Page, the project name is now shown in the approval route screen
IN5367, nService 7171	The font size was increased and there were changes to the text and background colour to improve legibility in the Master Data and Phrase Search areas of text editor in the Project Brief
IN6305, nService 8710	Functionality has been added to allow an email reminder to be sent to relevant project members a configurable number of days before the expected completion date of Artwork review tasks
RQ1716	A web service has been created which allows Brief Manager to look up component codes to ensure that a central PLM application can manage the allocation of unique component codes. Please contact your Customer Success Manager for further information
RQ1748	A web service has been created which will communicate approved components to an external PLM application. Please contact your Customer Success Manager for further information
RQ1749	A web service has been created which communicates with a customer ERP when a production order is complete. Please contact your Customer Success Manager for further information
RQ1427	An artwork print sample can be triggered from a workflow task if approval users have a specific role

Bug Fixes

Reference #	Description
IN6508, nService 9371	Fixed an issue whereby the ' character caused display issues in an asset's history, this issue did not affect the integrity of the asset history
IN6379, nService 8843	Additional performance improvements to Resource Manager FormAdmin page

Appendix

This page left intentionally blank.
